MARATHON ULTRA AR & 20

3-TAB DESIGN SHINGLES

Time-tested and true. So popular is this design, it's available in our widest variety of colors and limited warranty lengths of 30 or 20 years. All Traditional Shingles conform to industry standards for wind and fire resistance. They are an excellent choice for exceptional roofing value.

Fiberglass Asphalt Shingles

These fiberglass based shingles are made with superior modified sealant for greater wind resistance, and tear strength values that exceed ASTM D3462 standards.

Marathon Ultra AR

- Marathon Ultra AR shingles feature an algae resistant granule
- Class "A" Fire Resistance Rating^{††}
- Limited wind warranty coverage up to 60 mph¹
- Product meets IRC wind code requirements
- Limited 30-year Warranty¹
- 5 year IKO Iron Clad protection¹
- Meets CSA A123.5

Marathon 20

- Class "A" Fire Resistance Rating^{††}
- Limited wind warranty coverage up to 60 mph¹
- Product meets IRC wind code requirements
- Limited 20-year Warranty¹
- 3 year IKO Iron Clad protection¹

¹See Limited Warranty and shingle application instructions for complete information.

^{††}Use of an approved underlayment beneath all fiberglass shingles is strongly recommended, especially on roof slopes below 6:12. Class "A" Fire Resistance Rating is achieved only with the installation of an approved underlayment.

Note: Marathon Ultra AR shingles feature an algae resistant system with a Limited Algae Resistance Warranty.¹

IKO Marathon Ultra AR and Marathon 20 shingles feature a Class "A" Fire Resistance Rating. Class "A" simulates the conditions characteristic of severe external fire hazards. As part of a complete shingle roof system (deck, underlayment and the shingles themselves) IKO Marathon Ultra AR and Marathon 20 shingles meet the stringent tests of **ASTM E108** and **CAN/ULC S107**.
